# Lifetime Warranty

All SATA Products (unless otherwise stated) are fully warranted against manufacturing default including faulty materials and workmanship, subjected to being used for its intended purpose and allowing for fair wear and tear.

Defective tools will be repaired and/or replaced at SATA's discretion free of charge. They should be held by buyers or returned for inspection to the factory upon request.

## Warranty Information

The obvious slippage on socket end or crack on socket wall indicates that this impact tools has been used on this socket. When you are working with impact tools, please choose impact sockets with black coat.

The breach of handle, blade chip-off and bent shanks are the results of using screwdriver as a pry bar, punch or chisel.

Distort or breach on the wrench is also result of using the wrench as a pry bar. Please use the right pry bar for prying.
