

# Your Tools, Your System!

Professional Storage Made Simple

**SATA**

MADE TO TRUST  
MADE TO CHALLENGE™

# Crafted for Organization, built for Modular Freedom.

Creating the perfect workspace requires flexibility. SATA Modular Workshop Equipment gives you the freedom to configure, expand, and organize exactly as you need. Each module is built for durability and performance, combining solid steel construction with brushed stainless-steel surfaces and ergonomic design for lasting strength.

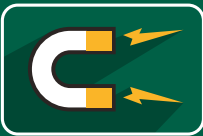

From tall cabinets with adjustable partitions to drawer combinations for tool organization, and from integrated waste modules to stainless-steel work tables, every detail is engineered for comfort, safety, and efficiency. Full-extension drawers, magnetic door locks, and interlock systems ensure smooth handling and secure storage, while the modular concept delivers a continuous, professional layout. Perfect for storing and organizing all your SATA tools, this system works as hard as you do – because when it comes to organization, there's no room for compromise.

# MODULAR WORKSHOP EQUIPMENT

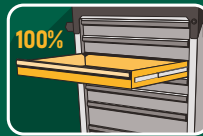

Highly durable stainless steel work surface

Magnetic block secures door when unlocked

Door opening direction adjustable

Drawers fully open (100%)

High-quality ball bearing slides

Versatile storage solution

Perforated panel with 10x10 mm holes, compatible with various types of hooks and accessories

1.0 mm brushed stainless steel surface with wooden top

Dampened lock closure for quiet, smooth operation

Three dividers with customizable spacing for flexible storage

Interlock system allows only one drawer open at a time to prevent tipping

Magnetic block keeps the door securely closed when unlocked

Full-extension drawers for easy tool access

Adjustable dividers for tailored organization

Door opening direction can be changed as needed

# Tall Cabinet – 1 Door

- The door panel is secured with upper and lower bolts, allowing you to choose the preferred opening direction
- Equipped with standard adjustable partitions, the cabinet can be easily customized to your specific storage needs
- A robust magnetic block and precision steel ball limit design ensure the door panel stays firmly in place when closed

| Article Code | Length (mm) | Width (mm) | Height (mm) |
|--------------|-------------|------------|-------------|
| SC95150      | 600         | 500        | 2000        |

## Tall Cabinet – 2 Doors

- The door panel is secured with upper and lower bolts, allowing you to choose the preferred opening direction
- Equipped with standard adjustable partitions, the cabinet can be easily customized to your specific storage needs
- A robust magnetic block and precision steel ball limit design ensure the door panel stays firmly in place when closed

| Article Code | Length (mm) | Width (mm) | Height (mm) |
|--------------|-------------|------------|-------------|
| SC95151      | 600         | 500        | 2000        |

## Cabinet Combination – 2 Doors

- Includes a standard adjustable partition, allowing you to easily customize the internal spacing
- Designed with a 900 mm working height to ensure optimal ergonomics
- Supplied as a complete integrated package including a hanging cabinet, standard support, and square-hole hanging panel ensuring quick and convenient assembly for the user

| Article Code | Length (mm) | Width (mm) | Height (mm) |
|--------------|-------------|------------|-------------|
| SC95152      | 702         | 500        | 2000        |

## Tool Cart Combination – 6 Drawers

- Features five small drawers and one large drawer, compatible with SATA EVA & PVC tool sets
- Fully extendable drawer design provides easy access to all tools
- Click-lock mechanism prevents opening under heavy loads
- Four side-column anti-collision strips for added protection
- Four 4-inch premium casters (two with brakes) for smooth movement and stability
- Top fitted with 10 mm high-density PVC corrugated mat
- Designed with a 900 mm working height to ensure optimal ergonomics
- Supplied as a complete integrated package including a hanging cabinet, standard support, and square-hole hanging panel ensuring quick and convenient assembly for the user

Note: This product must be installed between any two cabinet modules (except tall cabinets)

| Article Code | Length (mm) | Width (mm) | Height (mm) |
|--------------|-------------|------------|-------------|
| SC95153      | 694         | 483        | 2000        |

## Cabinet Combination – 7 Drawers

- Features five small drawers and two large drawers, compatible with SATA EVA & PVC tool sets
- Fully extendable drawer design provides easy access to all tools
- Equipped with a locking mechanism that prevents drawers from sliding open under heavy loads
- Designed with a 900 mm working height to ensure optimal ergonomics
- Supplied as a complete integrated package including a hanging cabinet, standard support, and square-hole hanging panel ensuring quick and convenient assembly for the user

| Article Code | Length (mm) | Width (mm) | Height (mm) |
|--------------|-------------|------------|-------------|
| SC95154      | 702         | 500        | 2000        |

## Cabinet Combination – Rubbish Bin & Paper Roll Holder

- The push-plate waste outlet is positioned on the left, providing space for a waste bucket inside (not included)
- On the right, a standard industrial wipe roll holder is integrated, with replacement rolls conveniently stored in the lower drawer
- Designed with a 900 mm working height to ensure optimal ergonomics
- Supplied as a complete integrated package including a hanging cabinet, standard support, and square-hole hanging panel ensuring quick and convenient assembly for the user

| Article Code | Length (mm) | Width (mm) | Height (mm) |
|--------------|-------------|------------|-------------|
| SC95155      | 702         | 500        | 2000        |

## Cabinet Combination – Corner

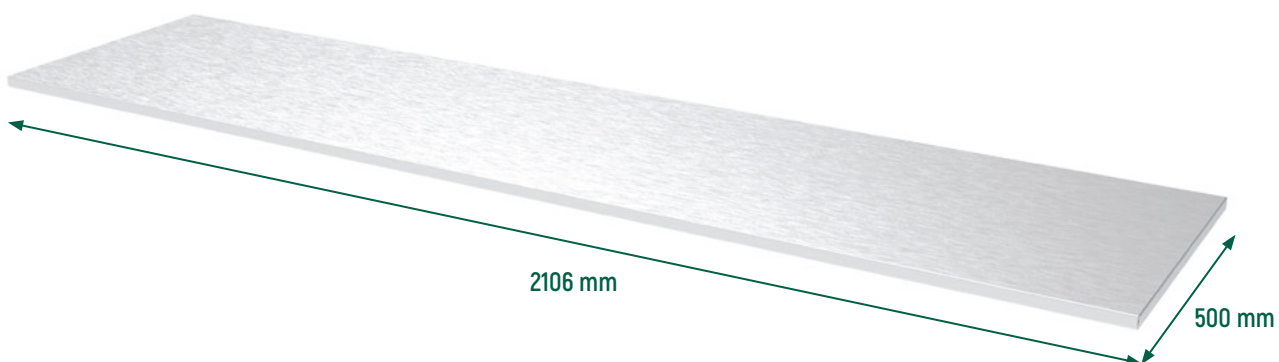

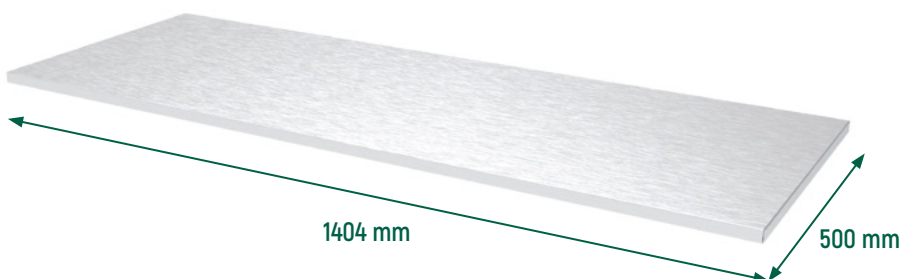

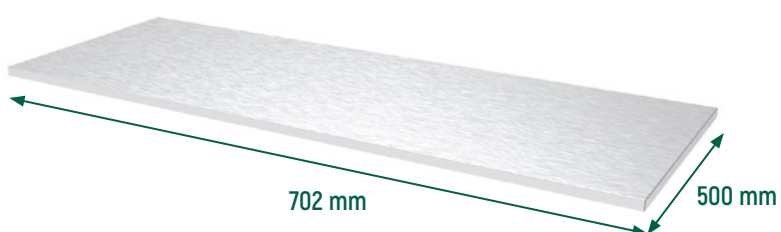

- Designed for seamless integration with adjacent modules, enabling a continuous and functional corner connection
- Includes a 18 mm thick multi-layer composite wood surface, fully encased in 1.0 mm brushed stainless steel for lasting strength and a refined appearance
- Designed with a 900 mm working height to ensure optimal ergonomics
- Supplied as a complete integrated package including a hanging cabinet, standard support, and square-hole hanging panel ensuring quick and convenient assembly for the user

| Article Code | Length (mm) | Width (mm) | Height (mm) |
|--------------|-------------|------------|-------------|
| Coming soon  | 800         | 800        | 2000        |

## Stainless Steel Work Tables

- 18 mm thick multi-layer composite wood surface, fully encased in 1.0 mm brushed stainless steel for lasting strength and a refined appearance
- Elevates your cabinet setup to an ergonomic 900 mm working height for comfortable use

| Article Code | Length (mm) | Width (mm) | No. of Modules |
